

Dear Valued Contractor Partners,

We are reaching out to inform you of a significant update regarding the federal government's implementation of a 25% tariff on certain steel derivative products. These measures will continue to affect portions of our supply chain and increase import costs on items such as steel panels, fasteners, plates, screws, and other steel-related products commonly used in the construction industry. As the current inventory is depleted, price adjustments may be necessary.

ABC Supply remains committed to supporting our contractor partners and maintaining a reliable supply of materials. We appreciate your understanding as we navigate these industry-wide changes together.

If you have any questions, please contact your local ABC Supply team.

Thank you for your continued partnership.

Sincerely,  
**ABC Supply Co.**
