

Dear Valued Customer,

Due to the immediate cost increases in our raw materials caused by the global uncertainties of the war in the Middle East, we are forced to increase pricing.

Over the past 4 weeks petroleum-based product costs have increased multiple times. Transportation surcharges have increased substantially causing increased costs on all raw and packaging materials.

Effective **May 1st, 2026**, all asphalt related products will increase by **9%**. All concrete related products will increase by **5%**. Your sales rep will be distributing new pricelists in the next few days.

We can only accept regular order volumes before the increase and invoiced price will be based on the ship date, not the order date.

We understand how important reliable supply and predictable pricing are to your operations, as they are to ours. We deeply appreciate your trust and ongoing support during these unprecedented times.

If you have any questions or require further information, please do not hesitate to contact your sales representative.

Best Regards,
