Re: Price Increase – Effective April 13, 2026

Dear Valued Customer,

This past December, the Canadian government has implemented additional tariffs and trade measures on certain steel products imported from China. These measures include a 25% surtax on specific steel goods originating from China, along with further restrictions and duties affecting steel products that contain steel melted and poured in China. These tariffs were introduced to protect domestic industries and address global steel overcapacity and trade imbalances.

As a result, the landed cost of steel products imported into Canada has increased significantly. Despite our efforts to absorb these additional costs through operational efficiencies and supply chain adjustments, the ongoing tariff impact and rising raw material costs have made it necessary for us to implement a price adjustment.

*Effective April 13, 2026, prices for the following Roof Anchors will **increase by 10%**.*

23-406 – Single Ring Retrofit Anchor 7 3/4" with Nails

23-413 – Reusable Roof Anchor

23-415 – Single Plate Heavy Duty Roof Anchor

23-416 – Dual Plate Heavy Duty Roof Anchor

23-417 – Single Ring Retrofit Anchor 17.5" with Nails

23-418 – Double Ring Retrofit Anchor ST/ST with Nails

23-426 – Claw Type 2x4 Anchor

All orders placed on or before April 12, 2026 will be honored at current pricing (subject to product availability). A revised price list reflecting the new pricing is attached for your reference.

We remain committed to providing the high-quality products, reliability, and service you expect from us. We truly value your business and appreciate your understanding as we navigate these external cost pressures.

If you have any questions regarding the updated pricing or your current orders, please do not
