Subject: Price Change Notice

Dear Valued Customer:

At GPI Gutter Products, we remain committed to managing production and operating costs responsibly to provide stable, competitive pricing for our customers. For more than 20 years, this commitment has guided our approach through periods of economic uncertainty, inflationary pressure, and fluctuating metal markets. Our commitment to you includes sourcing quality materials, investing in cutting-edge manufacturing processes, and maintaining strict control over our operating costs, all to ensure you get the best possible products and service.

Since our last price increase announcement earlier this year, aluminum costs have surged more than 20% and remain near a multi-year high. Ongoing volatility driven by energy costs, supply chain pressures, and evolving trade policies continue to impact raw material availability and pricing across the industry. In addition, increases in fuel costs and freight rates continue to affect transportation expenses, while higher input costs for packaging materials are adding further pressure across the supply chain. We have worked diligently to absorb these changes and minimize their impact on you. However, sustained cost pressures across our operations now require us to make an additional pricing adjustment.

Therefore, GPI will implement the following price increases on selected products effective **June 15, 2026**:

- **8-12%** on Aluminum Gutter Protection and Accessories
- **8-12%** on Hangers and Outlets

Orders placed on or after **June 15, 2026**, will reflect the new pricing. Customers may place orders prior to the effective date at current pricing for immediate shipment based on product availability. GPI reserves the right to review and limit order quantities that fall outside normal historical purchasing patterns.

Updated price sheets will be distributed in advance of the effective date.

Thank you for your trust and continued partnership. We are committed to helping you succeed and navigate these evolving market conditions together. If you have any questions, please reach out to your Territory Sales Manager—we're always here to support you.

Sincerely,

Shane Busta

VP of Sales & Marketing
