June 30, 2026

To our valued customers,

Due to ongoing tariffs and import quotas, the landed costs of raw materials continue to rise. As a result, we must adjust our selling prices across affected product lines.

This letter is to inform you that Precision Metals will be increasing pricing on pre-painted products 10% - 20% effective July 15th, 2026. We will be issuing an updated price list in the next week.

Landed costs under the tariff and import quota system is very fluid, Precision Metals will continue to give as much notice as possible for future price adjustments.

Thank you for your continued support, and if you have any questions or we can help in any way, please feel free to contact us.

Sincerely,

Precision Metals Management
