December 19, 2025

To our valued customers,

Due to ongoing changes in tariffs and import quotas, the costs of raw materials continues to rise. As a result, we must adjust our selling prices across affected product lines.

This letter is to inform you that Precision Metals will be increasing pricing on those affected products 10% - 20% effective February 1st, 2026. We will be issuing an updated price list in the next couple of weeks.

Landed costs under the tariff and import quota system is very fluid, Precision Metals will continue to give as much notice as possible for future price adjustments.

Thank you for your continued support, and if you have any questions or we can help in any way, please feel free to contact us.

Sincerely,

Precision Metals Management
